

#### Resident Rooms (More Detailed Features)

- All bedrooms have their own private en-suites.
- Each room is tastefully decorated with neutral tones with the opportunity to add appropriate personal effects to personalised one's living environment.
- Each resident will be given the opportunity to have their preferred name/photo on their door to enable efficient locating of their room.
- Corridor door access to rooms are split to allow for mobile residents when used as a normal door, and can be expanded to allow for wheel chair/bed access and if special equipment is needed.
- Air conditioning is standard throughout, in addition in-room ceiling fans are also provided.
- Where residents need a high degree of assistance is required, electric powered beds are provided.
- Where residents seek to maintain a high level of independence by adjusting their own comfort levels, they are provided with Hi-Lo Beds to alter the angle of their bed.

- Resident personal safety is our prime concern with this exclusive gated community providing 24 hour monitoring of the property, swipe card access and discrete individual nurse call pendants, so we can respond to requests quickly.
- In-room internet, webcam and cable TV capability
- Private balconies are available for some upper level low care suites.
- A limited number of interconnecting rooms are available for couples.
